Pesticide Application Records

According to **0080-6-16-.05 RECORDS** of TDA's *Laws and Regulations Governing Pest Control Operators and Applicators of Restricted Use Pesticides,* all commercial applicators and commercial pest control operators are required to keep records which include pesticide used; target pest; site (crop, plant, house, business or building a pesticide is applied on or to and location thereof); dosage rate; the landowner, producer or other person employing such applicator; date used and amount of pesticide applied. These must be retained for two years and made available to the Commissioner of Agriculture or his designee on demand. The following table can be used to record pesticides used in child-serving facilities and should provide information in excess of that needed to comply with the above rule.

Child-serving facility:_____
IPM Coordinator:_____
Logbook overseer:_____
Address:_____
_____
_____

Pest Control Company:_____
Licensed Operator and Charter#:_____
Address:_____
_____
_____

Date	Time	Site (area, room number, other)	Target pest	Pesticide trade name	Dosage rate (per gal, per sq. or lin. ft., etc.)	Percentage of mixed use dilution	Total amount pesticide used	Common or chemical name	EPA registration number	Total area treated	Name of certified applicator
